

Horten Rotaryklubb & Ebola i Liberia

Dette skjedde, slik gjorde og gjør vi
det.

Beskrivelse deles ut.

Hva er Ebola.

- En svært smittsom blødersykdom.
- Lar seg vanskelig helbrede. 50 til 90% dødsfall.
- Spredning lar seg lett stoppe med enkle midler
- De midlene var ikke tilsted i Vest Afrika
- Ei heller vilje, kunnskap, informasjon og organisasjon.
- Resolusjoner ble vedtatt over hele verden
- The road to hell is paved with good intentions.

Hva kunne vi i HRK gjøre.

- Skaffe trygt og godt beslutningsgrunnlag.
- Handle med det samme.
- Samarbeide med lokal klubb på stedet
- Avklare behov.
- Trå til.
- Her er en del av bakteppet og en billedkavalkade:

20.000 smittet pluss mørketall

Lokal klubb var i gang

For Gus

HEALTH

Sinkor Rotary Club Donates Personal Protective Equipment to 4 Health Facilities to Prevent Ebola Spread

down with Ebola or other

sicknesses. According to him, health workers were dying and some were fleeing for their own safety leaving the health facilities abandoned.

In an exclusive interview with the Daily Observer, the Sinkor Rotarian president said that the country is going through a national public health emergency so they from the Rotary Club of Sinkor thought it wise to put together "very little resources," which they used to buy protective gear and other personal protective equipment for the fight against the EVD.

"We believe that the various contributions we have made across these places, even though not sufficient,

novia. You have heard that the virus is attacking other places in the continent. So we are thinking that if we raise more money, we are going to go up country with materials that will help to protect health workers as they fight the Ebola virus," the Sinkor Rotary Club outgoing president said.

Other than the donation to these health facilities, Mr. Fliemo said their message to "Ebola" is that it kills. We, at the Sinkor Rotary

club, are not going to let it spread. Those on the tour included Mayor Mr. Clam Doe Mvogo.

The first stop of the Club was at the SOS Clinic. The items were received by Mr. Fliemo, Mr. Mvogo, Mr. Maham Quanda Appietan.

The Sinkor Rotary Club's first stop was at SOS Clinic.

HEALTH

Sinkor Rotary Club Donates Personal Protective Equipment to 4 Health Facilities to Prevent Ebola Spread

down with Ebola or other

sicknesses. According to him, health workers were dying and some were fleeing for their own safety leaving the health facilities abandoned.

In an exclusive interview with the Daily Observer, the Sinkor Rotarian president said that the country is going through a national public health emergency so they from the Rotary Club of Sinkor thought it wise to put together "very little resources," which they used to buy protective gear and disinfectants to be used for the fight against the EVD.

"We believe that the various contributions we have made across these places, even though not sufficient,

novia. You have heard that measles, that whole family the virus is attacking other places in the continent. So we are thinking that if we can raise more money, we are going to go up country with materials that will help to protect health workers as they fight the Ebola virus," the Sinkor Rotary Club outgoing president said.

Other than the donation to these health facilities, Mr. Pison said their message to "Ebola" is that it kills. We at the Sinkor Rotary Club have heard that measles, that whole family the virus is attacking other places in the continent. So we want Liberland to take the pieces of advice: stay away, report cases involving signs of Ebola to the health authorities. Let us fight the epidemic together," he added.

Those on the tour included Monrovia City Mayor, Mrs. Clam Doe Mingo.

The first stop of the Club was at the SOS Clinic. The teams were received by the Sinkor Rotarian, Mr. Mahmud Quanda Appietan.

Lokal Rotary klubb kjøper og distribuerer smittevernutstyr.

Så satte vi i gang:

- Hva trenger dere i Sinkor Rotary klubb ?
- ”Penger til kjøp og distribusjon av materiell som hindrer smitte.”
- Og vi trenger det NÅ.
- Da ordner vi det. NÅ.
- Penger overført i løpet av 2 dager
- Kampanje startet i horten

Hansker, klor, munnbind, støvler og litt til. Og evne til og vilje til å utføre

RESULTAT.

- Hjelp nådde og når fram
- Grant avventes for å ytterligere styrke helse tjeneste.
- En aksjon for å hjelpe og styrke avansert undervisning som nå er stoppet opp.

Resultat for HRK.

- Lokal entusiasme
- Styrket kjennskap, kunnskap og omdømme via:
- Medlemmer fikk noe positivt og aktuelt å fortelle
- Flere helsider og forsider i lokal presse
- Innslag på NRK regional sending
- Egen spesialdesignet aksjonsside på Facebook
- Appell til andre Rotary klubber. 1 tro til
- Appell til andre foreninger i Horten. Flere tro til
- Samarbeide med lokal kaffe bar.
- Og mye mer. MYE MER. Og det fortsetter.

Alt er mulig om man vil det hardt nok

Takk for meg så langt.
